Tutorial of DeeKeep Deezer Music Converter

Tips:

1. Please click the  button to browse and choose the output path.
2. If you don't change the output path, the converted files will be saved in DeeKeep default folder:
C:\Users\User Name\Documents\DeeKeep.

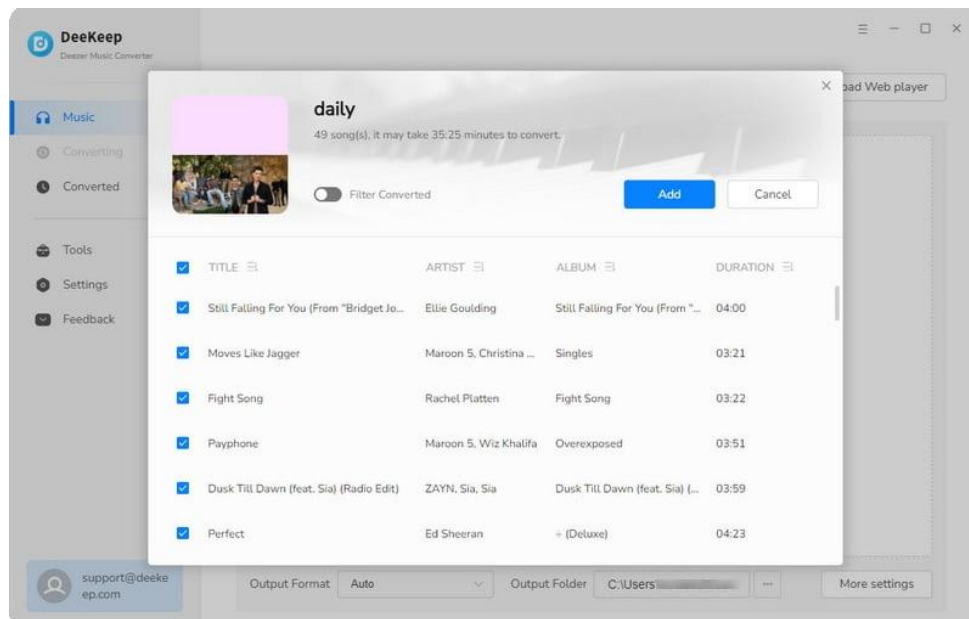

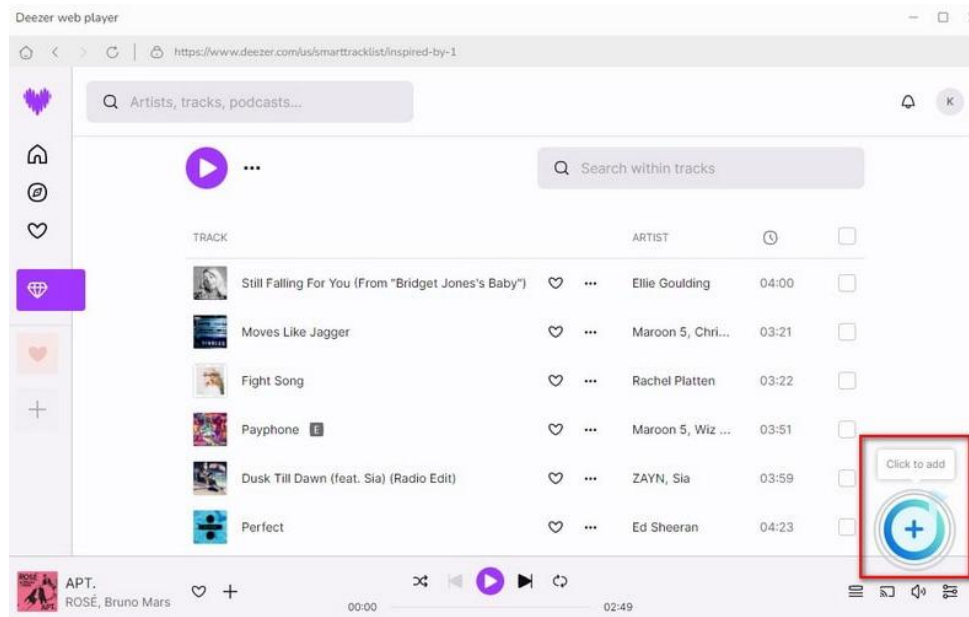

Add Deezer Music

Open an Deezer album, artist, or podcast you want to download in the Deezer Music web player, and click "**Click to add**" button on the lower right. DeeKeep will automatically analyze and list all songs immediately. Then you can select the songs you want to convert and click "**Add**" button.

Tips: If you want to avoid downloading songs repeatedly, you can turn on the "**Filter Converted**" button.

Tutorial of DeeKeep Deezer Music Converter

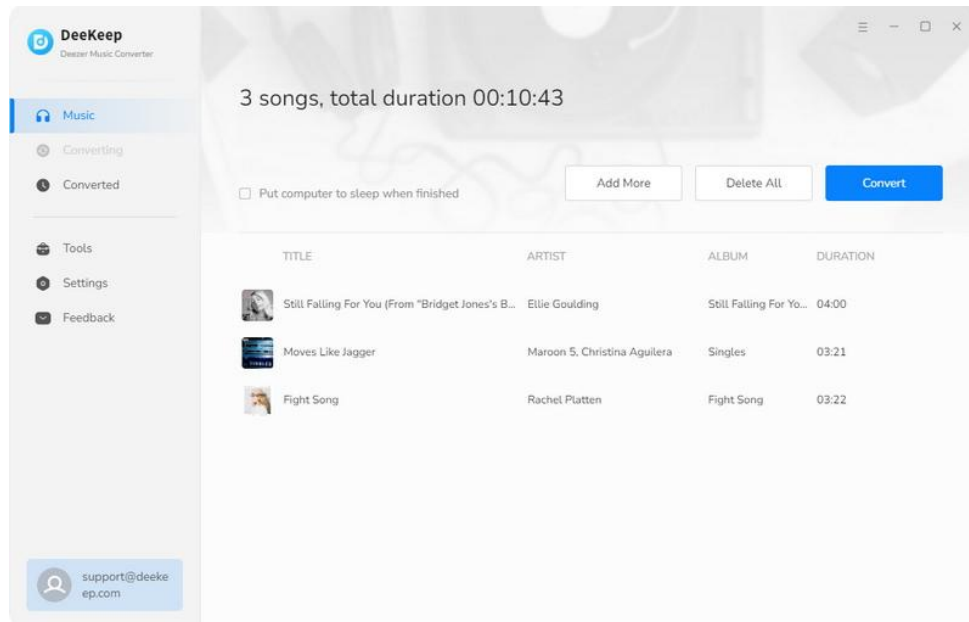

Convert Music Files

In this step you can click the **"Convert"** button to start downloading songs. Then wait patiently for the conversion to finish.

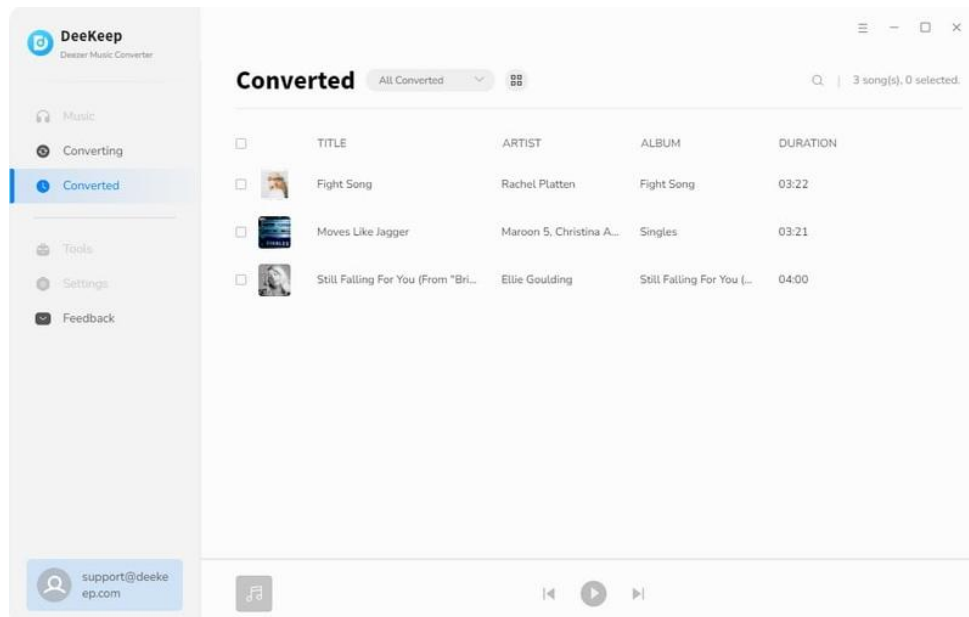

Tutorial of DeeKeep Deezer Music Converter

Tips: If you need to convert multiple playlists at once, click the **"Add More"** button or select the Deezer Music web player on the screen. Then select the songs you want to download as in the previous steps, and add them to the download list.

Check Downloaded Songs

Once the conversion is done, you can check the converted songs in the **"Converted"** section or directly go to the output folder you customized in the previous step.

How to Use DeeKeep Deezer Music Converter Tools

In addition to converting music from Deezer Music, DeeKeep Deezer Music Converter also provides some very useful gadgets. You can find the **Tools** option from the toolbar on the left. After clicking in, there are four parts, namely AA/AAX Converter, Format Converter, Burn CD(Mac vision doesn't include), and Tag Editor.

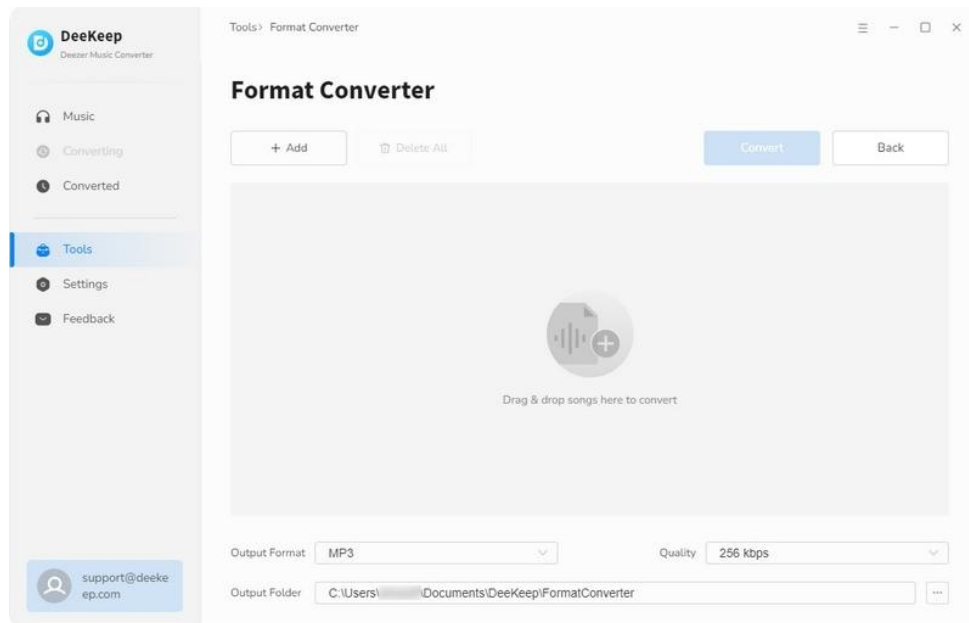

Tutorial of DeeKeep Deezer Music Converter

Format Converter:

This tool is mainly used to convert audio formats, click the **" + Add "** button to select an audio file locally or drag song from the computer, and then click **"Convert"** to output to the format you want. Currently, supported output audio formats include MP3, M4A, FLAC, WAV, OGG, and AIFF. What's more, it allows to output the files with specific sound quality and channel.

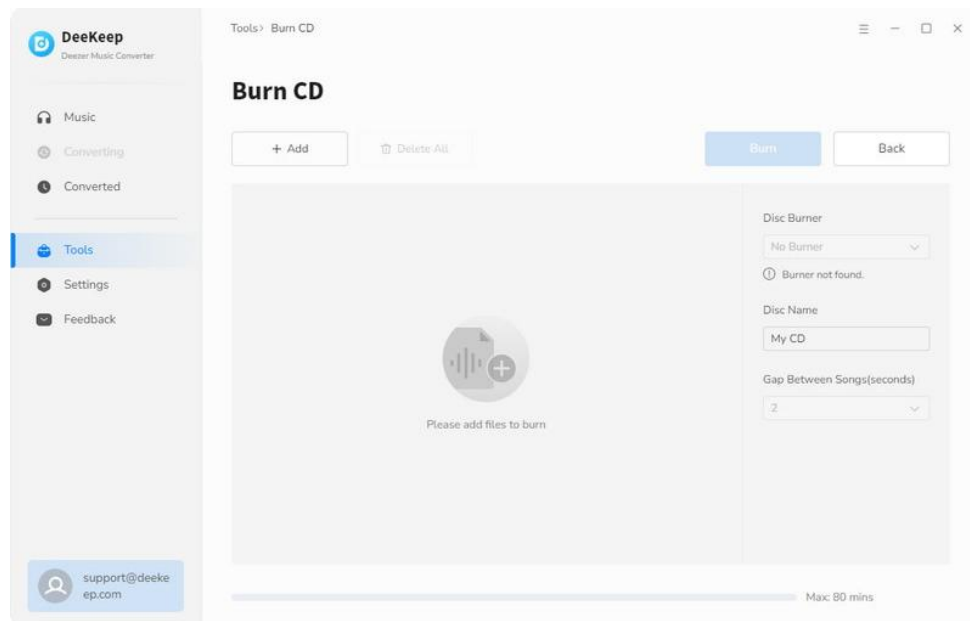

Tutorial of DeeKeep Deezer Music Converter

Burn CD:

This tool is to provide a portable channel for users who want to burn converted songs into CDs to save or give away. You can import the songs you just converted into this list by clicking the **" + Add "** button. Insert a blank disc into your CD or DVD burner. Click the **"Burn"** button to start burning.

Tip: If you want to select the converted songs, you can go to the "Converted" module and select specific songs you want. Then tap the four-square box above and then click **"Burn CD"** in the drop-down list to add them to list.

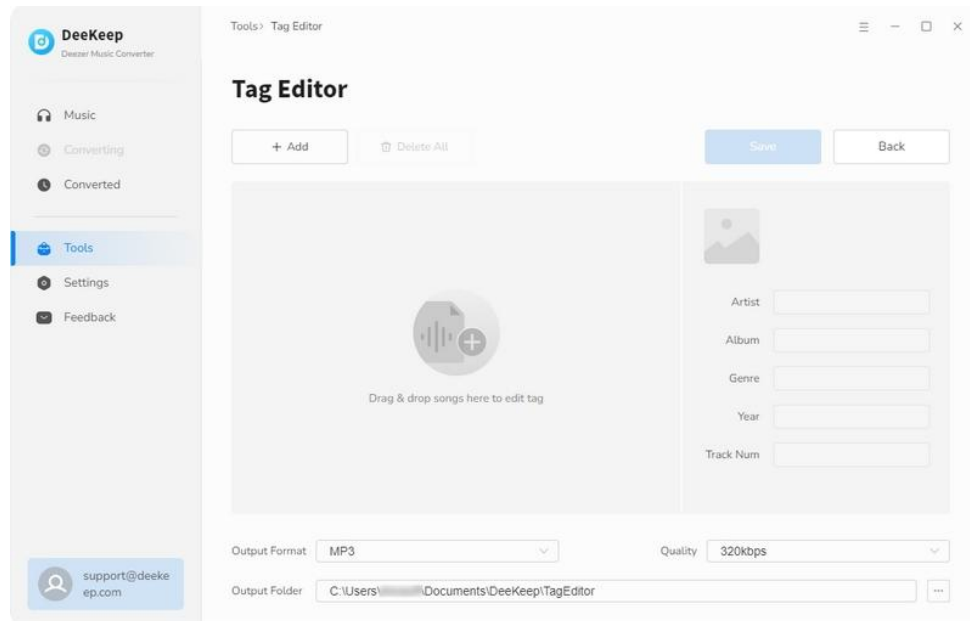

Tutorial of DeeKeep Deezer Music Converter

Tag Editor:

Tag Editor is a useful tool to help users edit tags of their local audio files or modify the ID3 tags of the converted songs. Click **" + Add "** to select the song you want or drag and drop the local file to edit. then click the **"Save"** button to save it. The tool support alter the tags including artwork, title, artist, album, genre, year, and track number.

Tip: If you want to edit the converted song, just select the song in the "Converted" module and click the four-square box above and tap **"Edit Tags"** to quickly enter the edit interface.

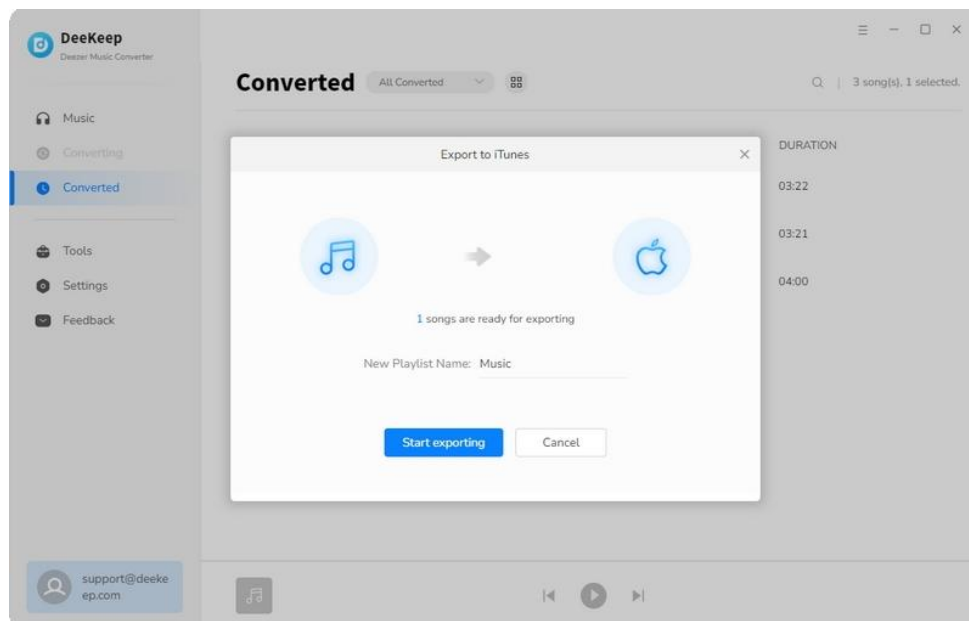

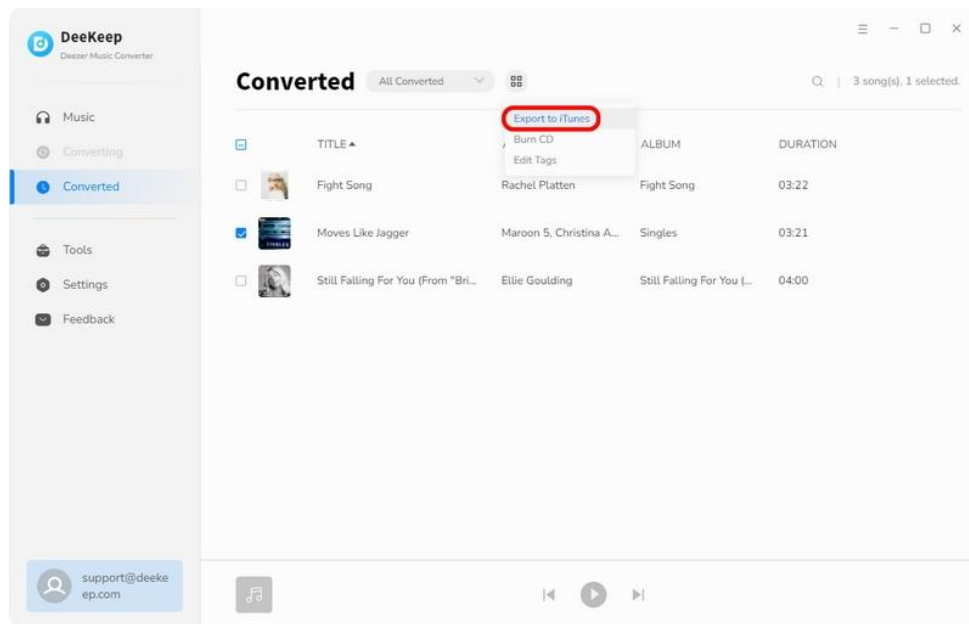

Tutorial of DeeKeep Deezer Music Converter

Export to iTunes/Export to Music:

In addition to the tools mentioned above, DeeKeep also has a simple tool to help you quickly import the downloaded Deezer music to iTunes. It is called **Export to iTunes** in **Win** and **Export to Music** in **Mac**. After the conversion is complete, just select the songs you want to import on the **Converted** tab, click to select them, and then tap the four-square box above. Select **"Export to iTunes(Export to Music)"** in the drop-down option. A window will pop up where you can name the playlist whatever you want, then click **"Start exporting"** button. and you can easily import the songs to your iTunes library.
